ETHICUS LABORATORY

First dermatological laboratory in Mendoza, which stands out for its products promoted to doctors and for competing in the pharmaceutical market with national and international laboratories. Its brands include Urecrem, Hol, Koal, Dha and Inkplay, of dermatological quality, intended for skin care.

The company founded by Enrique Samsó, is authorized by the ANMAT and produces its products in compliance with GMP standards (good manufacturing practices).

Like many family businesses, Ethicus began its activity in 1983 with minimal capital and a manufacturing area of 20 square meters. The space was later expanded to 90 m², and currently has a 350 m² plant in the department of Godoy Cruz. The machinery used for the production process is of national origin and recently, under the auspices of the municipality of Godoy Cruz, solar panels were installed for the purpose of generating its own electricity.

MASSAGES

RELAXING (50 min or 80 min)

Manual therapy designed to produce the well-being of the body through soft, slow and warm maneuvers that generate endorphins and offer a sensation of tranquility, calm and relaxation. It is done with essential and active oils that help balance the systems and provide full rest.

DEEP TISSUE (50 min or 80 min)

Manual therapy focused on eliminating the tension accumulated in the deepest muscular structures and their fasciae whose slow maneuvers with pressure and deep friction allow the body to be relieved and body motion to be restored.

HYDRATION/VOLCANIC ROCKS (60 min or 80 min)

Geothermal therapy inspired by ancient oriental techniques based on the existence of seven energy centers in our body called chakras through which the energy of the universe (rei) and the vital energy (ki) of each person flow. The stones are placed in the chakras to mobilize and restore the energy of each one and in combination with massage maneuvers with warm stones and hot oils reduce stress, improve sleep, reduce muscle pain and detoxify body and mind.

BATH MENU - AROMATHERAPY

Based on the healing benefits of warm water, this ritual offers the body a deep sense of well-being in combination with essential oils based on their active ingredients and the aromatherapy they provide.

Aromatherapy is a healing science, which through the use of essential oils seeks to balance the mind, body and emotions. The benefits provided by essential oils go beyond relaxation, they eliminate stress, but also improve the appearance of the skin, reduce anxiety, counteract insomnia, increase defenses and relieve body aches.
